## SBS Report Generator Service (customized mailing lists)

Report Generator is a new tool offered by the NAIC's State Based Systems (SBS) for external users to purchase a report/list of licensed producers in a state. West Virginia has authorized SBS to offer the following information on licensees via this service for a nominal fee payable directly to SBS.

Fields listed in the report include: License Number

Individual Producer Name and National Producer

Number (NPN)

Business Entity Name and FEIN

License Type and Status

License Line of Authority

First Active Date of License

Effective Date of License

**Expiration Date of License** 

Domicile State

Resident Status

Business Phone and Business E-mail

Full Mailing Address

Full Business Address

Report Generator allows the requestor to request their listing using a variety of search criteria, view the number of records returned with the associated cost of the report, pay their fee, view / print their receipt and download their report. Report Generator also includes an interface that will allow the user to retrieve their report at a later date, for a limited time, using unique transaction and PIN codes.
